

Dear SIT Course participant,

Welcome to the Omnivati platform designed to help you innovate and learn the systematic approaches to creativity and innovation. Below you will find step-by-step instructions on how to gain easy and fast access to the Omnivati platform.

### 1. Signup

Signup using your email account at: <https://app.omnivati.com/signup>

### 2. Login

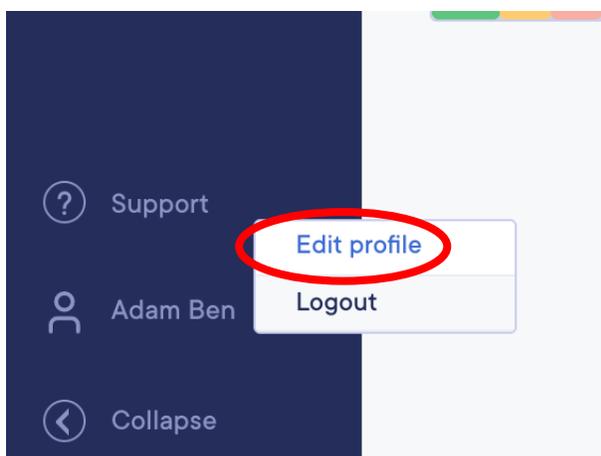

After signing up and confirming your email, login at: <https://app.omnivati.com/login>

\*Note: if you did not receive the confirmation email, please check your **Spam** folder, and if using Gmail, your **“Promotions”** tab as well.

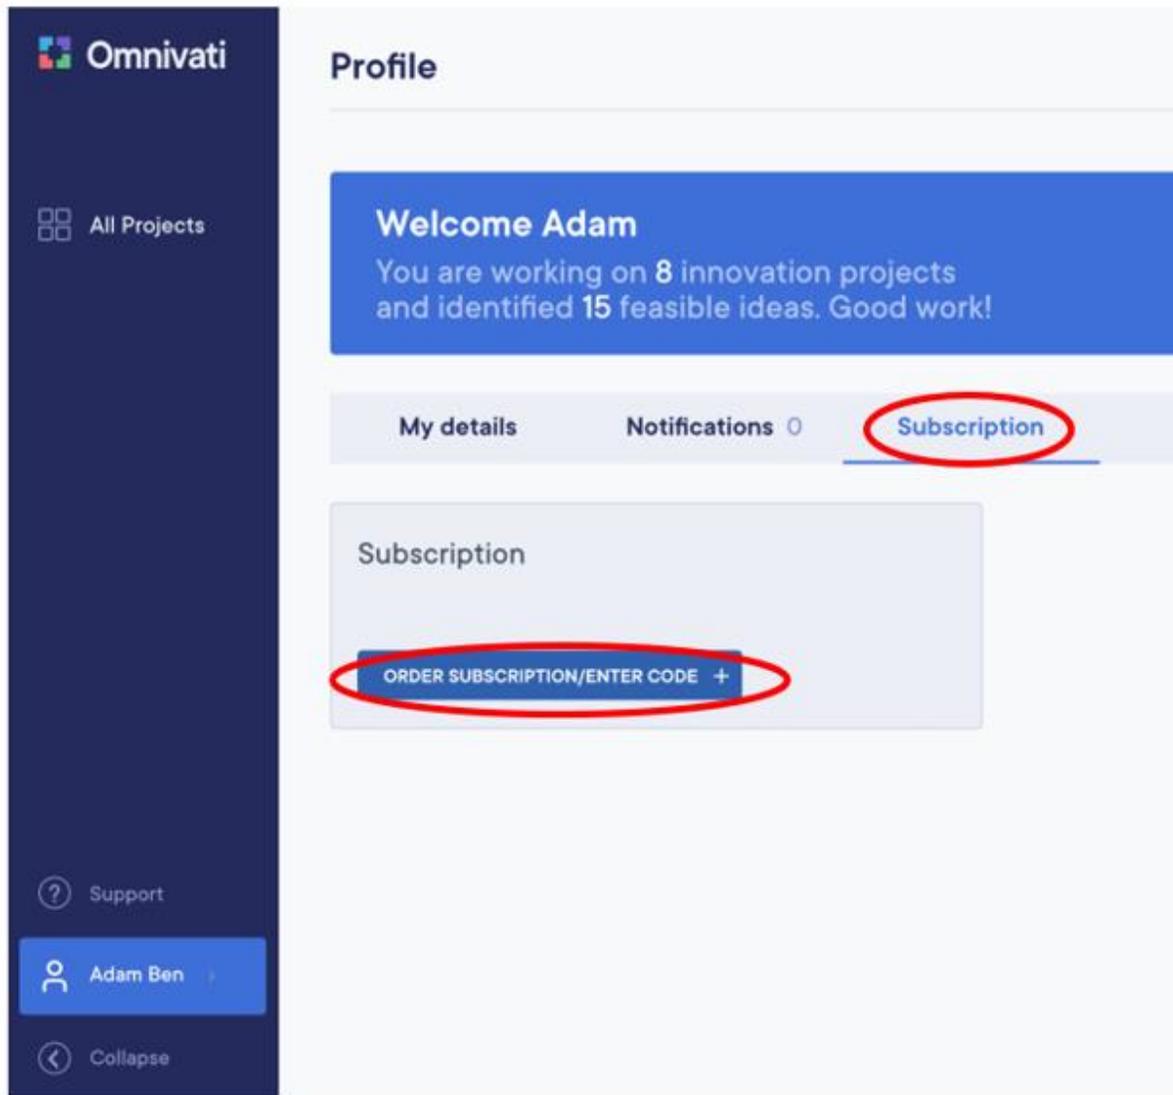

Alternatively, some users inadvertently enter an email address with a **typo** (incorrect spelling), and that could be another reason that they do not receive a confirmation email.

### 3. Payment/Free Code Activation:

If the platform does not take you automatically to the **Payment/Free-Code** activation section, please go to your profile page by clicking the **Edit profile** button.

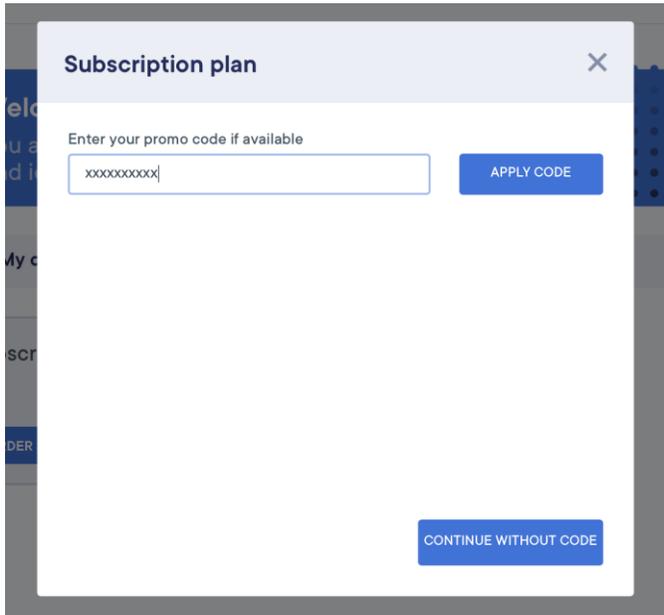

In the **Profile** window, select the **Subscription** tab, and then click the **Order Subscription/ Enter Code** button circled in red below.

In the **Subscription plan** window, please enter your promotion code and click **Apply Code**.

**Your promotion code provides you with a free access license for 1 month:**

Please use the code sent to you by CoPeople

Click **OK**, and you may now start using the Omnivati platform.

You can find tutorial videos on how to use the Omnivati platform embedded into the Omnivati app's screens.

Also, there are additional resources that you can find here: <https://omnivati.com/resources/>

Please visit our [Omnivati](#) website for more information, and our [FAQ](#) page as well.

Please feel free to contact our support team via [support@omnivati.com](mailto:support@omnivati.com) with any questions you may have. Please note we are currently only optimized for PC/Mac/Laptops, and not for hand-held devices. You are warmly invited to follow Omnivati on LinkedIn for updates on new features and the availability of additional templates/methods:
